Dear all Cumberland Council members,

I want to voice my objection to the construction and operation of the Organic Waste Transfer Site located on Church Street, Lidcombe.

My motive for objecting to the proposal is because it can pose not only the risk of citizens having a likely chance of catching cancer within their body system but it can cause traffic jams, noise pollution and very unpleasant smells from waste if many of them are gathered here at the tip for us, residents of Lidcombe! If you please, we appreciate it if you cancel the proposal to do so.

Thank you!!
