Attention all members of Cumberland council,

I have been a resident of Lidcombe for the last 13 years and am concerned over the development of this project. Unlike the other major recycling plant in our area (Chullora), this one has been proposed to be developed within close proximity to a residential area. This will absolutely ruin the quality of life for the residents nearby as well as the rest of the suburb. The development will add extra strain to the already struggling roads due to the heavy trucks and additional heavy traffic passing through. The extra traffic will also cause congestion in the area leading to longer travel times for residents.

Thank you for viewing my objection and points of view.

Regards
