Subject: [EXTERNAL] objection to the proposed waste disposal facility situated at 109 Church Street, Lidcombe, NSW 2141

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Sir/Madam,

I am writing to express our strong objection to the proposed waste disposal facility situated at 109 Church Street, Lidcombe, NSW 2141. This facility is identified as the Organic Waste Transfer Station under the development application DA2023/0130, located on Lot 1, DP778492.

I have serious concerns regarding the potential consequences of this project, which I believe will result in the following issues:

1. **Environmental Contamination:** The proposed facility is likely to cause air, noise, and soil pollution.
2. **Significant Traffic Impact:** The local community will be heavily burdened by the increased traffic caused by the waste transfer station.
3. **Dust, Fumes, and Unpleasant Odors:** The facility's operations may result in the emission of dust, fumes, and odors, causing discomfort to the surrounding area.
4. **Disruption of Tranquility:** The tranquility of the local community will be adversely affected by the presence and activities of the waste disposal center.
5. **Compromised Health and Safety:** The well-being and safety of the local community may be negatively impacted by the proposed facility.
6. **Devaluation of Property:** The establishment of the waste transfer station could potentially reduce property values in the vicinity.
7. **Adverse Effects on Residential and Commercial Environment:** Both the residential and commercial areas in the vicinity would be adversely affected by the waste disposal center.
8. **Financial Burden on Residents:** The ongoing use of tip trucks for waste transportation may result in damage to the local roads, for which residents would bear the cost.

Considering these concerns, I firmly oppose the implementation of this proposal.

Yours sincerely,
