Dear Sir/Madam,

Reason for Objection:

The proposed organic waste transfer station is very close to the public school and Lidcombe residential area. I believe that it is not suitable for this DA to be approved as the fumes, dust and dirt will have significant health implications to Lidcombe Residents. Furthermore, the traffic around the waste transfer area can create hazardous traffic congestion and it's just a matter of time where accidents are likely to occur due to constant traffic movement from trucks and heavy vehicles.

There are more suitable areas further from the proposed above, and we do believe that as our council, you would voice our concern strongly and reject the proposal based on these issues and ensure the best in the interest of the Lidcombe community is served.

Thank you for listening to our concerns and we wish to have the best outcome for our beloved communities and we look forward to continuing to support you as our councillor.

Sincerely yours,

Have a good day !!
