Dear Cumberland Council,

I am writing this email to express my disappointment about the proposal to build an Organic Waste Transfer Station at 109A Church Street Lidcombe.

This will impact not just the location residents but also the surrounding suburbs. It is just a 100m away from the un-completed new apartments. I couldn't image the people who are waiting to move into thier dream home, then find out the waste station is just next to them.

The Organic waste station will impact the local environment and also the health of residents. I can't image when summer comes, the smelling and bacterias.

Please consider our objections before you making the decision.
