I object the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141;

1. The proposed DA site is too close to residential properties, schools, parks.
2. Too many trucks going around the area will add traffic congestion, noise and air pollution. And increase of hazards and accidents for local residents.
3. The hazard of pollution may impact the health of local residents.
4. The organic transfer station will produce bad smell, attract rats, cockroaches, pests and rodents.
5. Environmental impact of air pollution, soil pollution, sound pollution.

As above reasons. I object to develop of the waste transfer station
