Reason for objection: The site proposed to build organic waste transfer site is too close to the community. Lidcombe has been growing as a suburb for young families to raise their children. This will impact the community badly as it will produce bad smells in the environment, more trucks will be commuting around the area to produce excessive noise. It is also so close to a childcare centre, this will create poor environment for the children to spend their days. Lidcombe is a nice suburb to reside in, building this waste centre, will just demolish the identity of the suburb badly - of which it has been building up more positively in the last couple of years. Therefore, I object this proposal of development.

Regards,
