To whom it may concern,

I am writing to object the proposed rubbish tip in Lidcombe. Due to its close proximity to residential area, I am concerned about traffic congestion during its operation hours and environmental impacts in the area if the facility is built at the proposed site.

Lidcombe's traffic is already congested without this facility which would definitely be bringing in more traffic and adversely causing more disruption in the area. It has not yet been mentioned about inevitable air and noise pollutions as well as higher road maintenance costs. Local residents will have to eventually bear the costs.

I would like to propose to re-consider the development plan and seek this facility to be built elsewhere where it would not greatly affect residents and community as a whole.

Please feel free to contact me, if further clarification is required.

Kind regards,
