- > Reason: Lidcombe does not need a waste facility or rubbish tip close to residential areas. It's disappointing as a long term resident that this council could even consider a rubbish tip close to its residential properties, close to schools , child care , businesses etc.
- > This facility can create health and safety issues to its residents, create air, noise and soil pollution and destroy our beautiful suburb .
- > Council should think about creating more parks for its residents and not a rubbish tip in a family oriented suburb.
- > We are also close to Olympic park which everyone has access to its facilities across Sydney and any dust fumes and bad smell will impact Lidcombe and Olympic park.
- > Please listen to your residents and do not construct a rubbish tip!!
