Hi,

Writing to express my objection and concern for the proposed rubbish tip in Lidcombe.

Reason for objection:

Putting a rubbish tip in the middle of a suburb with already existing establishments such as shops, schools, and residences, I think is quite ridiculous.

I have concerns for the all residents in the area, as there will be a significant increase in pollution and fumes and noise which will effectively lead to a decrease in overall health and well-being and quality in life. We all moved here thinking it was a nice, peaceful area to live in. We do not want to wake up to the clanking of trucks and open our doors to smell rubbish. I have an increased concern for the children going to school in the area as the number if trucks that will be going around pose serious risks for kids safety.

Another main concern is the traffic congestion that will occur. This area of Lidcombe is already a high traffic high congestion area- have you seen the traffic on weekends trying to get onto Parramatta road? The multiple extra trucks on top of this already heavy traffic is going to cause so much congestion. Not only this but heavy use by trucks will cause constant potholes and ongoing roadwork. This will even further negatively impact the traffic in the area. Also all the extra potholes that will most definitely appear, pose road safety concerns and will cause significant damage to our vehicles in the long run. Further the cost of repairing the road is going to skyrocket, and I am not happy to pay for damages caused by a tip that I didn't want in the first place.

Also not to mention, a rubbish tip in the area is going to significantly decrease the value of all properties in the area.

Do not ruin a well established suburb with a rubbish tip.

Kind regards,
