To whom this may concern,

In addition to all the concerns that probably have already been raised by members of our community.

I would like to add, Lidcombe is a major hub for the access to Olympic park precinct which hosts major events, including international events that would attract guests from around the world, Lidcombe might be their first impression of Sydney.

Building a waste transfer centre within 500 metre from the town centre and along the train track will not only be an eyesore, but will leave our guests with a horrible taste in their mouth from the smell.

Today, Wednesday 12th of July, is State of Origin day. This is only a local event, and the amount of people going through the Lidcombe hub and the amount of traffic is already causing major issues. Now having an additional 100+ garbage trucks going through the Lidcombe precinct is not doing favours to solve the problem.

Now, our community is ready to fight to the end no matter the decision!

Kind Regards,
