To Cumberland council,

I'm writing this email to voice out my objection to the proposed development of Organic Waste Transfer station at 109A Church Street Lidcombe.

Below are my contact details and reason for objection:

**Reason for objection:**

If the waste transfer station gets built at the chosen site in Lidcombe, there will be significant impacts on the residents currently living near the proposed construction site and rest of the neighbourhood. As an owner of a residential property near the chosen site, I am very concerned with the foreseen issues such as traffic congestion, air, noise and soil pollution, dust fumes and bad smell, impact on property values. As a local resident, it is not fair for me to bear any cost of roadworks damaged by the ongoing heavy vehicle usage of the area as well.

Kind regards,
