I have the following concerns about the proposed rubbish tip:

Traffic issues

- 118 truck movements daily through residential areas and which will cause damage to road infrastructure from the heavy trucks;
- Timing of these movements – timeframes don't align within the Environmental Impact Statement (EIS), so this needs to be investigated.

Hours of operation

- The proposed operational times go significantly over the Cumberland Development Control Plan hours.

Location

- The proposed site is not suitable for waste transfer processing – it needs to be within a full industrial area, with major arterial roads, not town centre or suburban roads, and not within such reach of a major residential block of apartments.

Regards,
