I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

this is the reasons 1. The proposed DA site is close to school and residential properties

2. it will cause inconvenience to the traffic

3.environment pollution, rat infestation,air pollution

there will be many unintended effects to our community, we try to build our community and our life better and we work hard for that everyday. we do not want a organic waste transfer station in our community, i hope you can think about this very carefully and make our community united prosperous society

Your sincerely
