To Cumberland Council,

I'm writing regarding to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

I want to say big NO, NO and NO.

LIDCOMBE is my home since the first day I arrived in Australia, and now I've been living here for more than 20 years, my kids and my grandchildren all grew up in this peace and quite suburb. I don't want you to ruined all this by building the waste transfer station in this area. Lidcombe already have busy traffic on church street due to numbers of apartments being built recently. we don't want to see once the transfer station has be build there will be waste transfer trucks going around and causing more traffic congestions. I couldn't imagine with all the dust fumes, the air pollution along with bad smelling when I have night walk around at Lidcombe with my families. Additionally, having the waste transfer station will also impact our residential's health, and mainly will cause huge impact on our Local environments.

Please consider my point of view when making the decisions.

Yours Sincerely,
