To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

Reason for objection:

1. The proposed DA site is close proximity to residential properties, schools, nursing home, parks and businesses.
2. Church street is a single lane road and cannot afford waste transfer trucks going around the neighbourhood, which will add traffic congestion, noise and air pollution. And increase the likelihood of hazards and accidents for local residents.
3. The organic transfer station will produce bad smell, attract rats, cockroaches, pests, rodents and other insects .

I am strongly against to this project, not only above reasons, we want to have a healthy environment and safe driving for our communities. School area should not be surrounded by a huge waste transfer.
How can the children study with such bad smell and traffic noise? As mum, I am totally unsatisfied! As a resident, I am totally unsatisfied!

Your sincerelv,
