Subject: [EXTERNAL] Objection to Development Application DA2023/0130 for 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Cumberland Council,

I am writing to formally express my objection to the proposed development and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492. The file number associated with this proposal is DA2023/0130.

Our neighborhood currently enjoys a pleasant and peaceful atmosphere. With the ongoing construction of apartments nearly finished and the existing heavy traffic on Church Street, the addition of a transfer station would only exacerbate the congestion issue. It is our strong desire to prevent waste transfer trucks from further crowding the area and causing more traffic disruptions. Additionally, we object to the potential noise, dust fumes, and unpleasant odors emitted by both the trucks and the transfer station itself.

Specifically, our objections are as follows:

- Increased traffic congestion
- Noise pollution
- Dust fumes
- Unpleasant odors

I request that you take these concerns into serious consideration during your evaluation of the proposed development. Our neighborhood's livability and the well-being of its residents greatly depend on the decisions made regarding such projects.

Please find my contact details below should you require any further information or clarification regarding my objection.

Yours sincerely,
