DA2023/0130, Site: 109A Church St Lidcombe NSW 2141; Lot 1DP778492

Dear Council,

I would like to object on the idea of the organic waste transfer station being added to my home suburb Lidcombe. I believe that the concerns of the younger ones and even the elderly will be affected by this plan.

The waste station is going to be vastly close to my house as of it is a bad weight if seeing as people gradually pass by Lidcombe and think its a bad suburb to live in.

If you add an organic waste station the A3 highway will be blocked and that will cause a lot more traffic. As well as parking is gonna be very difficult because there will be less places for parking as it is already.

All the pollution that the waste station will produce can damage the health of young children and even elderly's health with diseases such as asthma and cancer. The pollution will also make the environment very unhealthy and it may kill some plants from the air.

I object on the idea of the organic waste transfer station being added to Lidcombe .

Sincerely
