Dear Cumberland Council,

This letter is to object to the proposed Construction and Operation of an Organic Waste Transfer Station at 109A Church Street, Lidcombe on the following grounds:

1. The site is in close proximity to residential properties, particularly mine at
2. And I don't want to be subjected to noxious fumes, waste smell, cockroaches, rodents etc
3. The area only has a single lane road, that is not suitable for large trucks. This will increase the noise and congestion of the area, And residents will be exposed to the possibility of being hit by these trucks
4. The storm water waste from the plant will go into the local sewage
5. Pollution of our area

Please see sense and reject this DA Proposal

Please acknowledge receipt of this Objection
