Dear Council Team,

Reason for objection

I reject the proposal to build a rubbish tip which is less than 100 metres away from my property. This will impact our daily lives as my balcony is already faced with current car noise (bridge intersection - it seems there are drivers that do not know the traffic rules when to give way or they just stopped causing other drivers to beep other drivers) plus adding to the rubbish tip will impact further traffic congestion since there will be more garbage trucks entering and exiting Lidcombe St, further bad noise and soil pollution. In addition, my balcony is facing directly to Church St (on level 2) - this will severely impact us as we are closer to the road.

Regards
