To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

We had a nice and quiet neighborhood around this area. There are apartments being built and already have busy traffic on Church Street, we don't want to see once the transfer station has been built there will be waste transfer trucks going around and causing more traffic congestions. Also, object to the noise and dust fumes and bad smell from the trucks and the Plants from the transfer station.

Object to the following point:

- 1 .More traffic congestion: That street is the Main Street for Lidcombe residents to drive to/back from flemington ,homebush and strathfield, it would affect for students or workers to school and work.
- 2.Noise: It will affect the lidcombe residents' mental health.
- 3.Dust fumes: lots of residents are living around there, it causes their health problems and there are two primary schools are closed to that area.
- 4.Bad smell: it will damage the environment and create more bad smell.

It seems like the planning is not concerned about how much people would be affected and The adoption of hasty decisions does not make a positive contribution to constructive dialogue.
