Dear Cumberland Council,

My name is Tao Chen residing at 31 Rawson St Lidcombe NSW 2141 which is just around 200m away from the proposed Organic Waste Transfer Station. I can be contacted at 0466 337 173.

I wish to express my serious objections to the proposal for an Organic Waste Transfer Station at 109A Church Street, Lidcombe (DA2023/0130).

The proposed site is in close proximity to a high-density apartment complex and a railway station, both about 100m away. These areas are already extremely crowded and the addition of 118 heavy vehicle movements daily will exacerbate the existing congestion significantly, creating potential safety hazards.

Moreover, the increased noise and air pollution from this operation will have a direct impact on my family and me due to our home's close proximity. I am also concerned about the potential health risks posed by dust and fumes, which can especially harm those with respiratory conditions.

I strongly urge the Council to reconsider this proposal and seek an alternative site that would cause less disruption and potential harm to residents.

Best regards,
