To Cumberland Council;

We object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street Lidcombe NSW 2141; Lot 1 DP 778492. File: DA2023/0130.

The reasons are:

1. It will cause traffic jam all day long every day, in the city of Lidcombe, furthermore, it will also effect the Arthur street and Parramatta Road.
2. Environment issues, in the city center of Lidcombe, the most population surrounding, if there is a organic waste transfer station there, not just the smelling, noise, dust and fumes, but also the insects, and the mouth are the big concerns.
3. It also will have a bad name for development of the Lidcombe as a residency place.
