I object strongly to this proposal of building your so called "organic" Waste Transfer Station. There are many reasons I object. Lidcombe residents are already landlocked in when we need to drive from the area. Railway St is already a nightmare with normal traffic plus traffic from the newly built business park, if I need to try to go to rhodes or strathfield, especially on weekends. To have the added traffic of Garbage trucks using that road is ridiculous, not to mention the route these long garbage trucks take through the streets of lidcombe to get there.

The area is too residential to consider a project such as this. I strenuously object to it.
