Hi there

1. Organic waste transfer stations create unpleasant odors that attract rats, cockroaches , pests and rodents.
2. Harmful smoke and pollution affect the health, wellbeing and way of life of local residents.
3. Impact on local business value and living environment.
4. Lidcombe has always been a place of peace and quiet, is it because there are too many Asian residents and choose this area as a garbage station? Is it because of racial discrimination? The crime rate in Lidcombe is very low every year, it is also very safe, the environment is good, and it is close to the city center, is it too malicious to choose this area as a garbage station?

Your Sincerely
