Dear Cumberland Council,

I am writing to express my strong objection to the proposed Development Proposal (DA2023/0130) for the construction and operation of an Organic Waste Station at 109A Church Street, Lidcombe.

The establishment of an Organic Waste Station in such close proximity to residential areas raises significant concerns regarding potential odors, noise pollution, and increased heavy vehicle traffic. These factors could greatly impact the quality of life for residents and pose health and safety risks. This waste station definitely will make me anxious and depressed.

I urge you to reconsider the proposed location and explore alternative sites that prioritize the well-being of the community and the environment. It is crucial to ensure sustainable development practices and minimize any potential negative impacts on the ecosystem.

Please take these objections into serious consideration and engage in a thorough dialogue with the community before moving forward with this development.

Sincerely,
