[REDACTED] I would like to put my objections to this "waste transfer station" being constructed in Lidcombe at 109A Church St Lidcombe NSW 2141.

It will make the existing bad traffic worse by adding stinky big truck movements in the densely populated areas.

It will create very bad STENCH in the densely populated areas. It is very close to the populated areas, only 70m.

It will affect the property values in the area very badly.

Worst for the environment around the populated areas. There will be a stench around 24\*7.

I and my community are totally against this proposal.
