I object to this development. I believe it is inappropriate to have such a facility in the heart of a residential area, even though that part is zoned industrial.

I am very concerned about the traffic congestion it will cause with the all the 118 huge trucks coming from all directions from different councils.

I imagine they will be coming down John Street, and connecting roads from Parramatta Road. This will be terrible for traffic and noise.

The times that they will be able to travel are unacceptable. Why would they be able to travel on Saturdays if the industrial zoning does not allowing Saturday travel.

Lidcombe is a residential area. This will turn it into an industrial zone. The area in Church Street that is proposed is too close to residential areas, schools, child care, aged services and other facilities.

The noise pollution is going to be terrible.

We also know it will have terrible affect on the quality of the roads. Who is going to fix them.

Council must find an area that is not going to affect Lidcombe so adversely. It is a retrograde development for Lidcombe.
