Hi,
I'm writing to you today about the **objection** of the **DA2023/0130**. My name is . I have chronic medical issues and live 600m away from the proposed organic waste transfer site. There will be significant changes to the area if development is passed. As a local resident it will **impact negatively** to myself and the residents in Lidcombe. We are a growing high density suburb with 2 primary schools very close to the site. The reasons are:

- **Increased air pollution levels from site** - especially affecting residential buildings right next to it
- Odour will blow towards the direction of the schools.
- Increased traffic flow. We already have **heavy traffic** in the local streets as a lot of the cars travel though Lidcombe to other areas of Sydney.
- Increased travelling and waiting times in the car - loss of time, increased petrol/energy in fueling cars, **increased CO2 pollution from cars and increased trucks**
- Increased **costs** involve from extra travels
- Local roads will require **more maintenance costs** as there will be increased traffic and weight to roads leading to **higher council rates**
- Noise pollution from increased vehicles esp. trucks
- **Devalue the properties** in the area - less attractive for people to live here
- Less safe for families - may increase in road accidents.

May I request my personal information to be suppressed under Section 58 of the Privacy and Personal Information Protection Act 1998 ("PPIP Act")

Kind regards,
