CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

To whom it may concern.

I am writing to register my objection to APPLICATION NO: DA2023/0130.

I have lived in Lidcombe for more than 30 years, and I am concerned about the negative impacts this “Organic” Waste Disposal centre will have on our suburb. Some of these concerns include:

- The odour the facility will emit into our suburb will make living in our suburb unpleasant, especially considering how close this will be to residential areas.
- The traffic impact: One hundred eighteen (118) trucks moving through a residential area will significantly increase an already busy area.
- The environmental impact: Only a few staff will operate this facility. When there are so few staff, it will create opportunities for errors. One small mistake can create irreversible consequences for the local environment.
- The operating hours. The facility will operate 16 hours a day on weekdays and 10 hours a day on Saturdays. There is a plan to extend these hours should the need arise. The operating hours will mean that there will be increased noise and traffic throughout the week.

I implore you to reconsider the placement of this facility in Lidcombe and place it somewhere else that will not impact a residential area.
