Dear Sir/Madam,

I am writing as a local resident to strongly object to the above application.

I am greatly concerned that the proposal, if it goes ahead, will have significant detrimental effects on the environment and the local community. As a local resident this is a matter of concern which affects me and other local residents.

Once the waste transfer station has been built, they can create noise and air pollution in the surrounding area. Additionally, they may also generate heavy truck traffic, which can cause traffic congestion and negatively impact local residents and businesses. Finally, there may be concerns about odours and litter caused by the waste transfer station.

In addition to the issues of noise and air pollution, waste transfer stations can also pose health risks for us and nearby residents. The facilities may be exposed to hazardous materials and gases, and may be at increased risk of respiratory illnesses.

Nearby residents may also be exposed to these hazards, as well as unpleasant odours and dust. Another potential concern with waste transfer stations is the risk of accidents or spills. The handling and transport of waste can be dangerous, and there is always the possibility of a vehicle accident or other incident that could result in a spill or release of hazardous materials.

Finally, waste transfer station can also have negative impacts on property values and economic development in the surrounding area. The presence of a waste transfer station may discourage businesses or residents from locating nearby, which could have long-term impacts on the local economy.

My reasons for objections are:

1. Traffic congestion
2. Air, noise, and soil pollution
3. Dust fumes and bad smell
4. Negatively impact the tranquillity of our suburb
5. Negatively impact the health and safety of local residents
6. Negatively impact property values
7. Negatively affect residential, commercial, and recreational environment

8. Local residents will bear the cost of roadworks damaged by the ongoing heavy vehicle usage of the area.

Thank You

Your sincerely,
