Subject: [EXTERNAL] Submission for File: DA2023/0130. Site: 109A Church Street LIDCOMBE NSW 2141, Lot 1 DP 778492

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

To Whom It May Concern:

I strongly OBJECT to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141, Lot 1 DP 778492. File: DA2023/0130.

Church Street is situated at the heart of Lidcombe and there are many existing and new residential dwellings nearby.

The proposed location is extremely in close proximity to large residential areas which begin at 50m radius (including daycares and primary schools) and construction of an organic waste transfer station will have detrimental consequences such as:

- * Hazardous dust/fumes being created and released which impacts all Lidcombe residents
- * Bad odour affecting the residential areas and rubbish in streets from trucks
- * Attracting pests and rodents into the area
- * increased traffic congestion around Church Street with heavy vehicles (also causes road damage)
- * Noise from traffic and station operations

Please strongly consider the rejection of this proposed construction and operation of the waste transfer station based on the above valid points. Lidcombe is a growing, bustling multicultural suburb with many young growing families and this structure will have such negative impact on the suburb liveability and good reputation.

Your faithfully
