To whom it may concern,

Submission related to a proposed Development - Organic Waste Transfer Station, 109A Church St, Lidcombe (DA 2023/0130) .

The above development will have the following impacts on my amenity/property:

- Noise
- Odors
- Water Pollution impacts of waste Transfer station
- Heavy truck traffic on local roads
- Type of land use is not appropriate
- Traffic generated
- Property value loss
- Effect community quality of life
- Environmental issues

Waste transfer station can be sources of air pollution and other threats to public health as well as noise, odors, and excessive truck traffic on local road. These impacts can substantially affect community quality of life and reduce property value.

It is for these reasons that I object to the proposal of Organic Waste Transfer Station, 109A Church St, Lidcombe (DA 2023/0130) .
