Hi team,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

I have been living in Lidcombe for over 20 years. I would like to bring up my concern to the above proposal, which has a big health impact in the area.

I am afraid that will cause much problem in parking and rats running around, and also, the smell will have a big impact on the residents living around.

Furthermore, the heavy truck traffic will cause too much noise and traffic jam in the area.

There are apartments building along Church St, which has already cause inconvenience to the residents living in the area. if the proposal has been approved, that will cause more problems in the local area. Therefore, we strongly object to building the organic waste transfer station in Lidcombe.

Thank you for your consideration.
