To Whom It May Concern:

I'm sending this email to OBJECT to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141, Lot 1 DP 778492. File: DA2023/0130.

Church Street is situated at the heart of Lidcombe and there are many new apartments being built on the same street to enable more residents to move into the area. The proposed location is extremely in close proximity to large residential areas which begin at 50m radius (including daycares and primary schools) and there will be detrimental consequences such as:

- * Hazardous dust/fumes being created and released which impacts all Lidcombe residents
- * Bad odour affecting the residential areas
- * Attracting pests into the area - biohazard
- * More traffic congestion around church street with large vehicles
- * Noise from traffic and station operations

For the future planning of making Lidcombe the best possible area to reside in, please strongly consider the rejection of this proposed construction and operation.

Your faithfully
