I am writing to express my concern regarding the proposed organic waster transfer station.

I am concerned regarding the impact of having it so closely located to densely populated residential area will affect the ongoing traffic, quality of the road, and most important the air quality of the surround neighbourhood due to odour and pollution.

This is not the right location for such a facility, especially given the recent additional high density apartments that are due to be completed nearby.

I strongly oppose this development and request that the council oppose this development on my behalf.
