Hi, i'm here to object to the proposed DA Dump Site

1. The proposed DA Dump site construction site is less than 100 metres away from residential properties, schools, nursing homes, parks and 2 Enterprises
2. Church Street is a one-lane road and the Dump site would cause garbage transfer vehicles to occupy the road causing traffic congestion, noise and air pollution and an increase the danger and possibility of road side accidents for local residents.
3. The Dump site and garbage transfer vehicles would create an unpleasant odour, attracting mice, cockroaches, vermin and rodents
4. The air pollution caused by the Dump Site and garbage transfer vehicles would affect the local residents overall wellbeing
5. Stormwater impacts - Waste will begin to seep into our local sewage system thus polluting our residential land
6. Affect local and commercial value and residential environment

Yours Sincerely
