Subject: Objection to Development Proposal DA2023/0130 - Demolition of Existing Buildings and Construction and Operation of an Organic Waste Transfer Station

Dear Council officer:

When I heard this Subject of Waste Station I have a bad feeling.
Because every time I go to Flemington as well as Bourwood etc. I drive along the whole way of Church St Lidcombe.

This is the shortest way from [REDACTED] to there.
I must pass over the Waste Station and many large waste truck go with me.
I will face to following problems:

1. Traffic congestion
2. Air, noise and soil pollution
3. Dust fumes and bad smell
4. Negatively impact the tranquillity of our suburb
5. Negatively impact the health and safety of local residents
6. Negatively impact property values
7. Negatively affect residential, commercial and recreational environment
8. Local residents will bear the cost of roadworks damaged by the ongoing heavy vehicle usage of the area.

So I must say: "No" to the Subject of Waste Station!
