Whom it may concern,

[REDACTED]

[REDACTED] found out that there will be a Organic Waste Transfer Station in Lidcombe.

Lidcombe has many restaurants, many people live there, and more apartments will be built in the future. It is expected that many residents will leave Lidcombe if a garbage dump is established in such a place. If you drive a little to the suburb, there are many places where not many people live.

It is ridiculous to build a garbage dump where many people live. The air will get bad and I'm worried about the smell.

For this reasons, I oppose the creation of a garbage dump in Lidcombe. Please consider it again.

Thank you.
