Dear Cumberland Council,
I am writing regarding my objection to the proposed construction of a waste transfer station in Lidcombe.

[REDACTED]

Reason for objection:

Building this waste transfer station will lead to air and noise pollution in Lidcombe which will negatively impact the tranquility and cleanliness of the suburb. The inevitable stench from a rubbish tip will significantly lower the quality of life for citizens who live here and worsen the residential and recreational environment. It will also cause increased traffic congestion in Lidcombe and local residents will also have to bear the cost of roadworks due to damage caused by the increased heavy vehicle usage in the area.

Please kindly consider my objection to this proposal.
