To Cumberland Council,

I would like to object to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

We had a nice and quiet neighborhood around this area. Building an organic waste s transfer station is a good idea but please consider how busy the streets around the proposal site. Council should consider a site far away from the residential area. It is not for the convenient of the local communities but causing more traffic congestion in the near future and also the smells. If you want to change lidcombe, I would be really appreciated if the proposal is to build a local high school for the communities but not the waste transfer station.

Thank you

Your sincerely,
