NO RUBBISH TIP AT LIDCOMBE

Dear Madam/Sir,

Reason for objection:

We live in Lidcombe, one of Sydney's fastest developing suburbs.

I think the following problems exist if the Organic Waste transfer station is installed.

1. Large garbage trucks will operate daily from our Lidcombe street.
It looks like this will cause traffic congestion.
This is thought to be a problem for the safety of our children.
2. There are concerns about the health of local residents.
It is thought that dust fume, smell, noise and air pollution will occur at the waste transfer station.

Yours sincerely,
