To Cumberland Council,

I would look to object to the proposal for the construction. And operation of an. Organic waster transfer station at Church street Lidcombe NSW 214.

If the waste transfer station. Gets built, this will cause. Major problems for nearby residents, including:

1. This street is already a busy street, with lots of buildings, residents, and heavy traffic.
2. The construction of garbage station will bring about greater air problem, which will affect our health .

Your sincerely,
