Dear council

I object to build the Organic Waste Transfer Station, with the reasons below:

1. the station is so closed to residential fields, school, and park and so on.
2. 118 truck movements daily – through town and/or residential areas, which will result in serious traffic problems
3. there is no absolute assurance that odour from the site can be controlled, which will seriously affect the environment in this field. No one want to live in a field with pollution problem.
4. it will also affect the business environment and value for the whole community.

There are other so many disadvantage to build this Organic Waste Transfer Station so I absolutely object to this DA.
