Dear Comberland Council

[REDACTED]

I'm writing this letter on behalf of myself and my families. My daughter has serious asthma and she has been in hospital (emergency) many times already. She can hardly breathe in a bad the air condition such as smokey, dusty or SMELLY.

To build a rubbish tip in Lidcombe is such a mean and a ridiculous idea!!!

Look at the location:
It's less than 100 meters
to the nearest residential building!

Less than 800 meters
to St Joseph's Childcare Centre
to Canberra Nursing Home
to St Joachim's Catholic Primary School
to Oz Education Childcare & Preschool
to Lidcombe Public School
to Lidcombe Train Station
to the shops and restaurants and clubs etc.
Woh! What a "good" location!

The developers should think about the feeling of all the people who are living and working and studying in this area.

Thousands of children going to school every day with the dangerous traffic due to those 118 trucks movements everyday!!!

Thousands of people are driving through Arthur Street to their workplace, with the terrible traffic and even worse if the trucks running through there.

Everyone in Lidcombe will smell the stinky rubbish day and night, year after year!!!

They must know how many new building are coming in the next few years, obviously, they know!
Thousands of new apartments will be built in the next couple of years, well, think about it! Thousands of residents will move into the new apartments.

Think about the health impacts: millions of rats, cockroaches, mosquitoes, bugs will carry the germs or virus to the local residents.

Please treat us like a human..... We're taxpayers, aged grandparents, young children.

Thanks!
