[EXTERNAL] Subject: Objection to DA2023/0130,Site:109A Church Street Lidcombe
NSW 2141;Lot 1 DP 778492

To Cumberland Council,

I am writing for objection to the proposal for the construction and operation of an organic waste transfer station at 109A Church Street Lidcombe NSW 2141; Lot 1 DP 778492. File: DA2023/0130.

This decision of the Council fails to consider the health, well-being and safety of the residents nearby. The proposed waste transfer station is too close to the school, Child Care, Aged Care, parks and businesses.

Firstly, the waste transfer station will raise the levels of noise, soil pollution, dust fumes and bad smell and reduce the quality of air, attracting more rats, cockroaches, pests and so on. All of these will have negative impacts to the health of residents of this Council!

Secondly, too many rubbish trucks will cause traffic congestion, and have impact to our quiet environment. This will negatively affect residential, commercial and recreation environment.

I am getting very upset when I think about that when I go to my church, to Sydney Markit, to go shopping ... every time I have to go across the waste station in the future!!!

It would be wonderful if the Council listens to it voters and cancel this plan after consider carefully!
