We highly object the proposed rubbish tip (Organic Waste Transfer Station at 109A Church Street Lidcombe)

Living at Bachell Avenue would place us directly behind the proposed station. We moved our family to Lidcombe because of the fact that it is a family friendly suburb. The effect of building this waste station would substantially lower our properties value, increase the traffic movement through Bachell Avenue and cause a variety of environmental issues such as;

- * Traffic pollution
- * Noise pollution
- * The smell would be unbearable, we have two small kids and we would not want to expose them to this pollution.
- * Adverse health effects, we don't know what this would cause us in the long run and we do not want to find out.

As mentioned above our complex has many families with small children, with multiple primary and early education facilities near by. Having this waste station nearby would be detrimental to the childrens health and would also affect the vulnerable like our elderly in the community.

If this is to go ahead my family and I would consider moving away from Lidcombe. The waste station would very much ruin the reputation of Lidcombe being a family friendly suburb and just be known as the suburb with the rubbish tip!!!

WE ARE SAYING NO!!
