Reason for objection:

To Whom It May Concern,

I am writing to express my strong disagreement with the proposed waste transfer station at 109A Church St in Lidcombe. As a resident in close proximity to the site, I have serious concerns about the potential negative impacts on our community.

Allow me to share a personal story. My child suffers from asthma, and we have worked hard to provide them with a healthy and safe environment. The construction and operation of a waste transfer station nearby would introduce air pollution, noxious odors, and potential health hazards that could severely impact my child's well-being. I cannot bear the thought of subjecting my family to such risks.

I implore the Cumberland Council to consider the long-term consequences of this project on the health and safety of its residents. I urge you to explore alternative locations that do not pose a threat to the well-being of our community.

Thank you for your attention to this matter.
