To whom it may concern,

My name is _____ and I'd like to express my concerns in regards to the proposed rubbish tip at Lidcombe.

I am against this proposal as it will cause such a negative impact on our community, property values, health and safety, bad smell, noise and air pollution, traffic congestion and more. That area is already congested with the newly built apartments nearby and I don't understand why we need to have a rubbish tip so close to local residents and the community. It is literally few metres away from houses, how would you like to live next to a rubbish tip?

Out of all developments, must it be a rubbish tip that must be built in that specific area? Can it not used for a different purpose? No matter how clean you will try to maintain the rubbish tip - it is still a rubbish tip and will cause all types of havoc.

I would highly appreciate it if the council will listen to the residents of this community, understand why we all have concerns and are against it.

My details are below:

Thank you for your time and once again, please take thought of our concerns.

Kind regards,
