Dear councillor,

I am writing to you in regards to the objection to the proposal of organic waste transfer station in Lidcombe.

We are objecting to the proposal DA2023/0130 as the proposed site may impact the quality of lifestyle for residents in the local area.

Apart from the smell and pollutants that may occur within the area. I am sure that it will heavily pact the traffic conditions given that the proposed site is close to new residential high rises. The area is already starting to have heavier congestion around the proposed area.

Regards
